Energy Saving

Each raw material used, each productive process and each technology of the complex activity of the Tabriz Group sites are studied in order to reduce the environmental impact, by saving recycling, filtering, with the will of transforming the waste in resources and optimize the use of energy. Tabriz TILE Group is on the cutting-edge of adopting ecologically sustainable practices and this is demonstrated by the most accurate controls, repeated on a daily basis.

Low Gas Emissions to Atmosphere

Products commercialized by TABRIZ TILE GROUP meet all the norms required by global manufactured goods, imposed by the global law concerning environmental issues. These legal requirements have encouraged us even further when setting our own international goals; leading to a minimization of any environmental impacts which can derive from our manufacturing process.

Water Recycling From The Production Process

We reuse of the water from our production processes, apply cogeneration to make the most of the energy we use, reintegrate the waste products from each process into our ceramic tiles.

Recycling of Fired Material

TABRIZ TILE GROUP is committed to the principles of ISO 14001-2015 environmental management standards. Green goods production in order to minimize the environmental impacts in their life cycle reduce waste production, and promote environmental culture development is one of the most significant priorities in this industrial group.

ISO 9001	2015
ISO 14001	2015

from CELEB in Italy.

OUR COMPANY STORY

Tabriz Tile Industrial Group with more than 27 years of dynamic and continuous activity and using the latest technology and technical knowledge in the world and the use of quality raw materials is known as the largest producer of tile, ceramics and porcelain products in northwest of Iran.

In 2007, this industrial group, as the first and only Iranian manufacturer, started its official partnership with Spanish Company, Keraben, as one of the top European brands. Utilizing the international experiences of a foreign partner along with the capabilities of Iranian experts, strengthened the position of this brand as a leading brand in the ceramic tile industry in the country and also in the region.

Thanks to this official international cooperation and relying on design innovation, using the latest technology in the world, quality products have been provided to domestic consumers. Relying on international knowledge and experience, this industrial group has also recorded the honor of entering the highly competitive global markets especially in developed European and American countries in its resume.

Due to the domestic and international acceptance of products, this industrial group in three phases of development has increased the production capacity and created more variety in products. The result of these measures are the introduction of innovative and quality products to the market under the name of two brands of Kashi Tabriz (Tabriz Tile) and Kergres, which has been welcome by consumers. Also, Tabriz Industrial Group, as the first and only official partner of Iran and Spain in the ceramic tile industry, has attracted the satisfaction of its special customers and consumers by presenting various products with creative designs under the brand name of Kareban. Carrying out research and development processes on products and market research based on customer needs and desires in this industrial group, led to the presentation of different products with special designs under the brand name of Spanker. This brand is presented with a technical and design partnership of "Living Ceramic" group of factories in Spain and again, this industrial group was honored in the field of international interactions. Finally, offering diverse and different products caused the products of this industrial group meet the different needs of customers and consumers at different levels of the market and the customer satisfaction is a constant companion of this group.

Continuous efforts along with targeted investments and utilization of specialized and experienced human resources, has led to numerous awards and honors along with domestic and international standards and certifications for this group.

Due to the importance of environmental protection, Tabriz Industrial Group as its social responsibility has taken effective steps to reduce environmental pollution and also increase the cultural level of mentioned subject in the community to be able to play an effective role in creating a green future in this regard.

Quality and innovation are the top priority of our activities and we always try to achieve the satisfaction of domestic and international consumers and we will certainly not spare any effort in this way.

NUESTRA COMPAÑÍA HISTORIA

Tabriz tile industrial group, con más de 27 años de actividad dinámica y continua, dispone de la última tecnología y conocimiento técnico en el mundo y utiliza materia prima de calidad. Es Conocido como el mayor productor de productos de baldosas, cerámica y porcelana en el Noroeste de Irán.

En 2006, este grupo industrial, como primer y único fabricante iraní, inició su colaboración oficial con Keraben grupo, una de las principales marcas europeas. Utilizando la experiencia Internacional de un socio extranjero junto con las capacidades de los expertos iraníes, se fortaleció la posición de esta marca como una marca líder en la industria de revestimientos Cerámicos en el país y también en la región.

Gracias a la cooperación internacional oficial, la innovación del diseño y utilizando la última Tecnología del mundo, se han proporcionado productos de calidad a los consumidores Nacionales. Basándose en el conocimiento y la experiencia internacional, este grupo industrial También ha registrado en su currículum el honor de ingresar a mercados competitivos Globales, especialmente en países desarrollados de Europa y Estados Unidos.

Debido a la aceptación nacional e internacional de los productos, este grupo industrial en tres Fases de desarrollo ha aumentado la capacidad de producción y ha logrado crear más Variedad en sus productos. El resultado de estas medidas es la introducción de productos Innovadores de calidad en el mercado bajo las marcas Tabriz Tile y Kergres, que ha sido Bien recibida por los consumidores.

Asimismo, Tabriz Industrial Group, como primer y único socio oficial de Irán y España en la Industria de revestimientos cerámicos, ha conseguido satisfacer a sus especiales clientes y Consumidores al ofrecer diversos productos con diseños creativos y bajo la marca comercial De Keraben. La realización de procesos de R&D de productos y estudios de mercado en base a las necesidades y deseos del cliente de este grupo industrial, derivó en la presentación de Diferentes productos con diseños especiales junto con la marca Spinker. Esta marca, en Colaboración técnica y con el diseño del grupo de fábricas Living Ceramic de España, logró Nuevamente mantener su distinción en el ámbito de las interacciones internacionales de este Grupo industrial. Finalmente, ofrecer productos diversos y diferentes hizo que los productos de Este grupo industrial satisficaran las diferentes necesidades de los clientes y queridos Consumidores en distintos niveles del mercado; la sonrisa de satisfacción del cliente es un Compañero constante de este grupo.

Los esfuerzos continuos, junto con las inversiones específicas y la utilización de recursos Humanos especializados y experimentados, han dado lugar a numerosos premios y Distinciones junto con estándares y certificaciones nacionales e internacionales para este grupo.

Debido a la importancia de la protección del medio ambiente, Tabriz Industrial Group, Como su responsabilidad social, ha tomado medidas efectivas para reducir la contaminación Ambiental y también promueve la cuestión cultural en el espacio social para que pueda jugar Un papel efectivo en la creación de un futuro verde.

La calidad y la innovación son nuestras principales prioridades y siempre estamos tratando de Lograr la satisfacción de los consumidores nacionales e internacionales y ciertamente nos Esforzaremos en este camino.

**DATA
SHEETS**

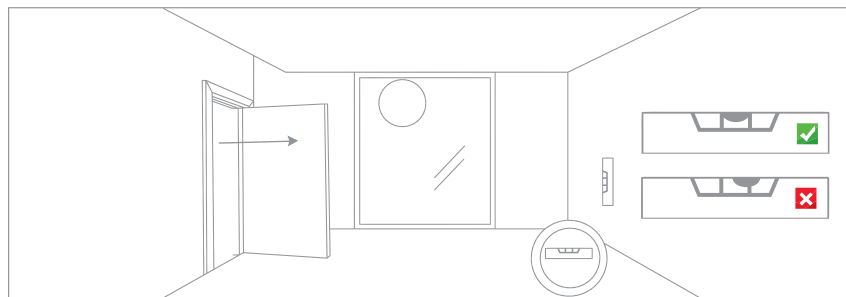

FICHAS
Técnicas
SCHEDE

Data Sheet

ficha de datos

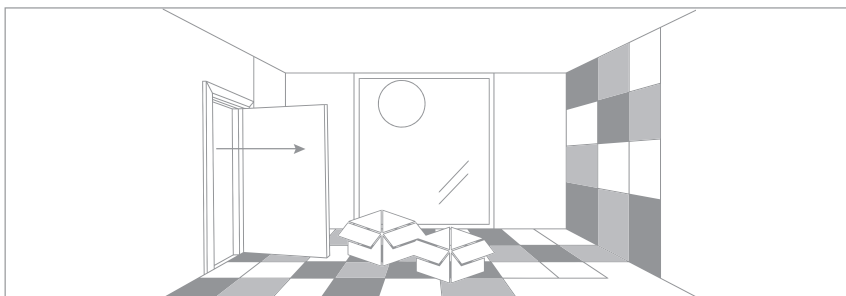

- The technical information written on the product package should be read.
- The product type based on the applied space should be carefully chosen.
- The shade, model and caliber options on the cartons of the products should be the same. One of the tips for the better performance of the products is to pay attention to the correct installation instructions and the following steps.
- Se debe leer la información técnica escrita en el paquete del producto.
- El tipo de producto basado en el espacio aplicado debe elegirse cuidadosamente.
- Las opciones de color, modelo y calibre en las cajas de los productos deben ser las mismas. Un consejo importante para el mejor rendimiento de los productos es prestar atención a las instrucciones de instalación correctas y los siguientes pasos.

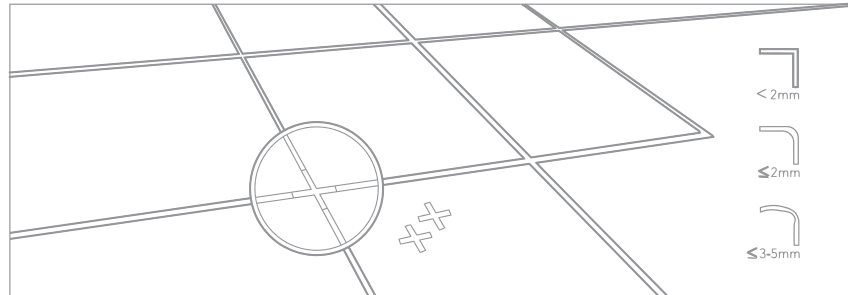

Support

- The installation place should be smooth, even and sturdy hard.
- The installation place must be free of dust or dirt.
- Avoid installing the product in very hot or cold temperatures.
- The above conditions are the same for the floor and wall products.
- El lugar de instalación debe ser liso, uniforme y resistente.
- El lugar de instalación debe estar libre de polvo o suciedad.
- Evite instalar el producto en temperaturas muy altas o bajas.
- Las condiciones anteriores son las mismas para los productos de piso y pared.

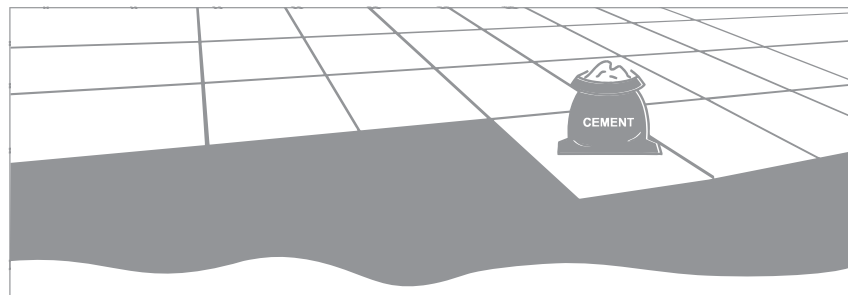

Material

- It is recommended that to use the product sections by random selection in the target space.
- If the product has any various different shade or graphics, the random selection and installation is necessary.
- Se recomienda utilizar las secciones del producto mediante selección aleatoria en el espacio objetivo.
- Si el producto tiene varios tonos o gráficos diferentes, es necesaria la selección e instalación al azar.

- In order to properly install the products, the cross or parallel linings should be used. The cross parallel linings are used for more beautiful installation, where the important technical issues (concerns), the alignment of the products and the prevention of any deformation on wall and floor surfaces should be considered.
- The minimal use of the offered cross linings will help you to make your ceramic installation more comfortable, fascinating and elegant. Therefore, in order to prevent any fault, the following items should be considered:
- Rectified products: at least 2 mm
- Non-rectified products: at least 2 mm
- Rastic products: 3 - 5 mm
- Remark: Regardless of the values written, the compliance with the installation rules of each region (country) is necessary, when the products are installed.

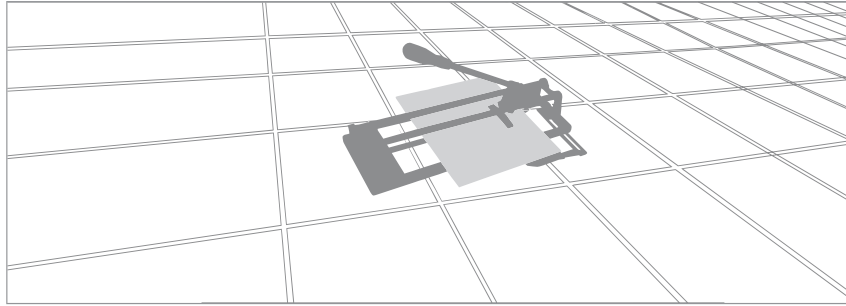

- Para instalar correctamente los productos, se deben utilizar los revestimientos cruzados o paralelos. Los revestimientos paralelos cruzados se utilizan para una instalación más bella, donde se deben considerar los problemas técnicos importantes, la alineación de los productos y la prevención de cualquier deformación en las superficies de la pared y el piso.
- El uso mínimo de los revestimientos cruzados ofrecidos lo ayudará a hacer que su instalación de cerámica sea más cómoda, fascinante y elegante. Por lo tanto, para evitar cualquier falla, se deben considerar los siguientes elementos:
- Productos rectificadas: al menos 2 mm.
- Productos no rectificadas: al menos 2 mm.
- Productos rásticos: 3 - 5 mm.
- Observación: Independientemente de los valores escritos, el cumplimiento de las reglas de instalación de cada región (país) es necesario cuando se instalan los productos.

- The use of filler mortars, tile adhesives and other adhesives should be proportional to the type of purchased product and these should be usable in the interior-exterior spaces, floor-wall surfaces and flat and non-planar surfaces.
- remark: The manufacturer instructions should be read necessarily when installing.
- El uso de morteros de relleno, adhesivos para losetas y otros adhesivos debe ser proporcional al tipo de producto adquirido y estos deben ser utilizables en los espacios interiores-exteriores, superficies de piso-pared y superficies planas y no planas.
- Observación: Las instrucciones del fabricante deben leerse necesariamente al instalar.

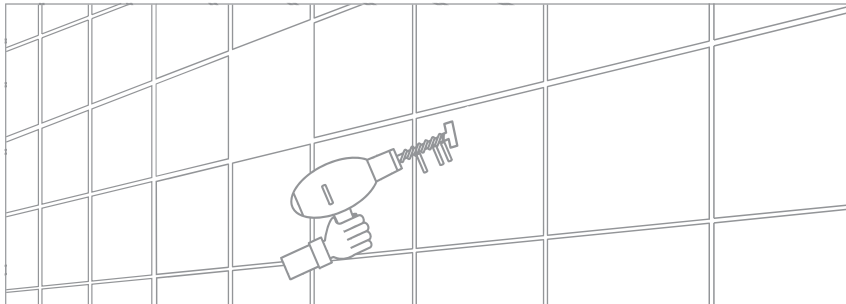

Data Sheet

ficha de datos

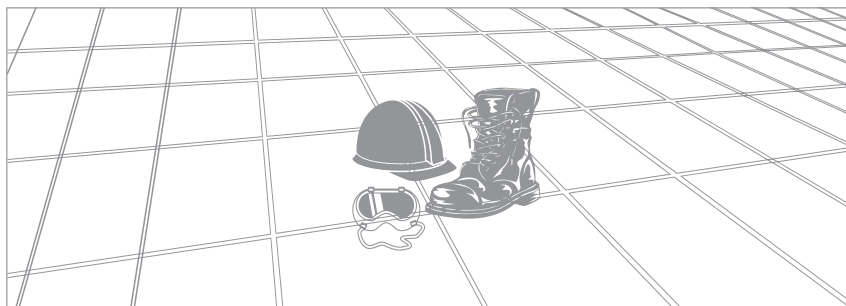

- For cutting the ceramic pieces, you can use a hand cutter.
- For cutting the harder pieces, you can use the electrical cutter with higher than 1 horsepower with water to cool the machine.

- Para cortar las piezas de cerámica, puede usar un cortador manual.
- Para cortar las piezas más duras, puede usar la cortadora eléctrica con más de 1 caballo de fuerza con agua para enfriar la máquina.

- Diamond-sized screw drill should be used to perforate the product.

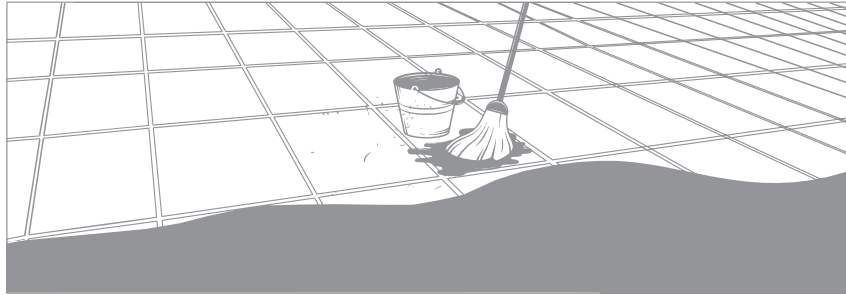

- Se debe usar un taladro de tornillo de diamante para perforar el producto.

- When carrying the products and dislocating the pieces, it is recommended to choose the correct method.
- the safety shoes, gloves, goggles and earplugs must be used, when cutting the products.

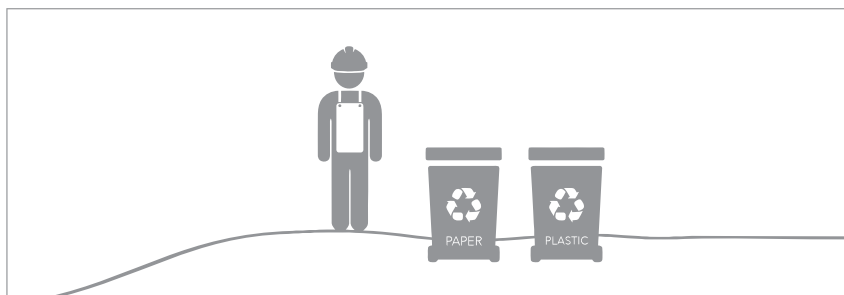

- Cuando transporte los productos y disloque las piezas, se recomienda elegir el método correcto.

- Deben usarse zapatos de seguridad, guantes, gafas y tapones para los oídos al cortar los productos.

- after installation, the maintenance of the products is imperative.
- in order to clean the residuals of soil, cement, bonding powder and cross linings, immediately use the neutral buffer and detergent after installation.
- the use of the neutral detergents for daily cleaning and washing is recommended.
- Avoid the abrasive detergents to clean the decorative sections of the products. the use of the neutral detergents and the certitude for cleaning the third baked products with the different lead, gold, silver coatings etc. are necessary.

- Después de la instalación, el mantenimiento de los productos es imprescindible.
- Para limpiar los residuos de tierra, cemento, polvo de unión y revestimientos cruzados, use inmediatamente el tampón neutro y el detergente después de la instalación.
- Se recomienda el uso de detergentes neutros para la limpieza y el lavado diarios.
- Evite los detergentes abrasivos para limpiar las secciones decorativas de los productos.
- Es necesario el uso de detergentes neutros y la certeza para limpiar los terceros productos horneados con los diferentes recubrimientos de plomo, oro, plata, etc.

- Any generated wastage (carton and plastic) should be segregated in appropriate places for recycling.

- Cualquier desperdicio generado (cartón y plástico) debe ser segregado en lugares apropiados para reciclaje.

SUSTAINABLE DEVELOPMENT	Commitments
Customer Services and Relationships with other Stakeholders.	Satisfaction of customers and other interested parties, seeking the internationalization of their brands and products in the various markets.
Continuous Improvement	Innovation and product development anticipating the expectations of its customers and ensuring the sustainability of the products throughout their life cycle.
Efficiency	Implementation of a culture of operational excellence that maximizes the efficiency of processes.
Social Goals	Involvement and motivation of its employees, since they are an important asset for the success of the company.
Environmental Protection	Protection of the environment, including pollution prevention, contributing to the minimization of environmental impacts and opting wherever possible and economically viable by the best available technologies.
Health, Safety and Well-Being	Prevention and minimization of risk to the health and safety of employees in order to contribute to their integrity and quality of life.
Relationships with Society	Compliance with legal and other requirements that the organization subscribes to its products and services activities.

TABRIZ TILE GROUP

Products commercialized by Tabriz Tile Group meet all the norms required by global manufactured issues. These legal requirements have encouraged us even further when setting our own international goals; leading to a minimization of any environmental impacts which can derive from our manufacturing process.

- Recycled material used in production Under the maximum authorized level for pollutant gas emissions.
- Cardboard and wood packing managed by SIG from ECOEMBES.
- Waste management handled through an authorized company.
- Recycling of industrial sewage water.

CUTTING-EDGE TECHNOLOGY

Each raw material used, each productive process and each technology of the complex activity of th Tabriz Tile Group are studied in order to reduce the environmental impact, by saving, recycling, filtering, with the will of transforming the waster in resources and optimize the use of energy. Tabriz Tile Group is on the cutting-edge of adopting ecologically sustainable practices and this is demonstrated by the most accurate controls, repeated on a daily basis.

	Reused Non-Fired Material		Energy Saving
	Recycling of Fired Material		Packing From 100% Recycled Materials
	Water Recycling From The Production Process		Ceramic Products Sustain Ability
	Low Gas Emissions to Atmosphere		FAO Pallets

THE ENVIRONMENTAL CERTIFICATIONS

Tabriz Tile Group have obtained the most prestigious international environmental certifications. Agencies and control bodies have officially recognized the work done by the company for the safeguarding of the earth's natural resources. These certifications are proof of the high standards attained by Tabriz Tile Group, a company which is a forerunner in terms of sustainable development. These are a clear proof of how it is possible to reconcile quality, industrial innovation and design with a serious policy for environmental safeguard.

INHABIT THE PRESENT LIVE THE FUTURE

Tabriz Tile Group create tile and ceramic collection to live the present and the future, surrounded by beauty, protected by the quality of an exclusive design of living in total freedom.

The same beauty and marvelous harmony the we dream for the world around us.

For this, Tabriz Tile Group create protects, by reducing to its minimum the environmental impact coming from its activity through the constant research of the total eco-sustainability in the working environment, on the materials used and in the productive processes, as the obtained environmental certificates demonstrate.

We want to contribute for a better world only what is really eco-sustainable can be considered as development with future vision.

KERABEN

Tabriz Tile Industrial Group with more than 27 years of dynamic and continuous activity and using the latest technology and technical knowledge in the world and the use of quality raw materials is known as the largest producer of tile, ceramics and porcelain products in northwest of Iran.

Factory: Tabriz Tile Industrial Group
Kashi Tabriz St., 24 km of Tehran Road
Tabriz, Iran.
