

میراک سرامیک

MIRAK CERAMIC

A WORLD OF LIFE'S POWER IN YOUR HOME

میراک در خانواده ای اصیل و قدیمی متولد شد تا دوران بلوغ و رشد فود را در کنار تجربه بزرگان صنعت کاشی و سرامیک طی کند و از آموزه های آنان مسیر فردای فود را روشن نماید و با انرژی و نیروی جوانی فلاقت و نوآوری را پیشه فود نماید

هدف، رسیدن به سرمنزل زیبای دنیای معماران و طراحان دافلی است که با کوله باری از طرح ها و رنگ های بدیع و پرجلوه طی طریق میشود

ارمغان میراک مس فوب تازگی به رنگ سبز و نمایش فافر فضا همچون زمرد در فانه هایی است که میفواهند جهانی از نیروی زندگی را در فود جای دهند

**Mirak was born in a noble and old family
to mature and grow with the experience
of the greats of the tile and ceramic industry
From their teachings, light up the
path of your future and make
creativity and innovation your profession
with energy and strength
The goal is to reach the beautiful center
of the world of
architects and interior designers
which is traveled with a bag of original
and effective designs and colors
Mirak's gift is a good sense of freshness in
green color and a luxurious display
of space like an emerald in homes that want to
accommodate a world of life force**

کاشی شیشه ای میراک سرامیک

مفصولات کاشی شیشه ای میراک سرامیک به گونه ای طراحی شده اند که همانند مفصولات سرامیکی مورد استفاده قرار گیرند.

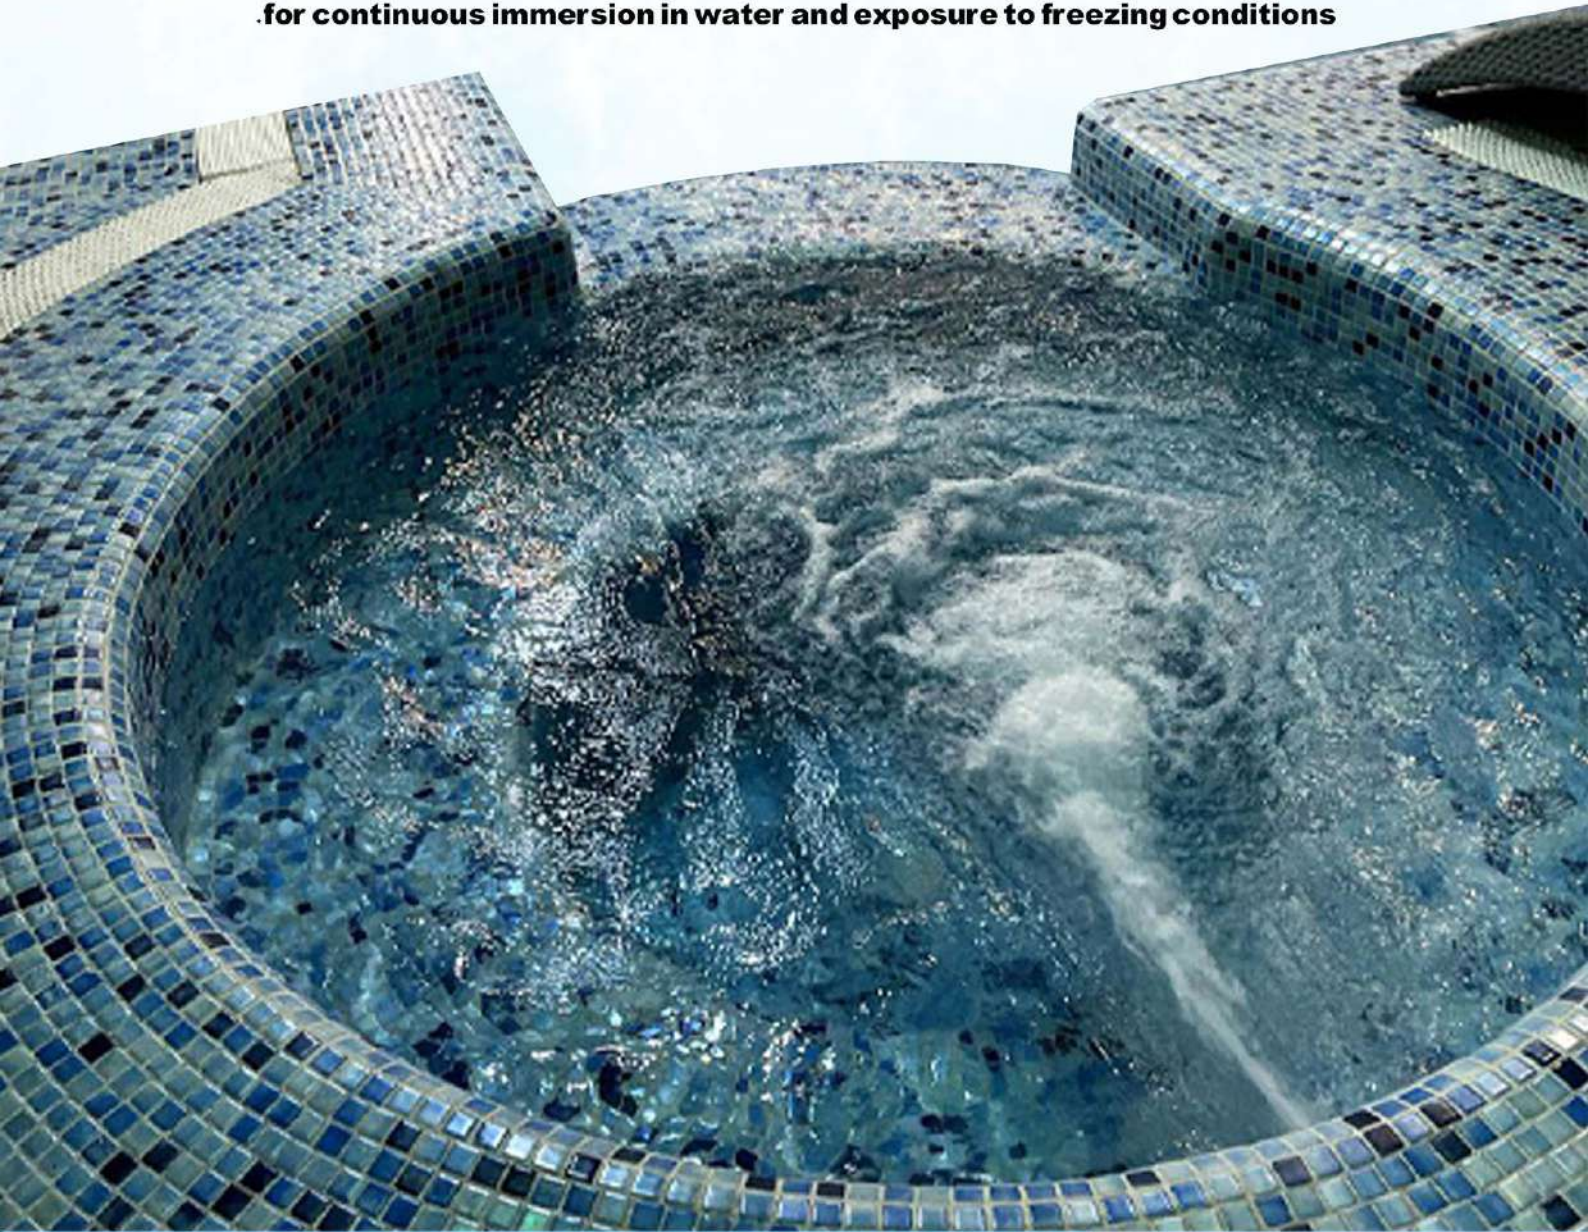

مفصولات کاشی شیشه ای میراک سرامیک در برابر مواد شیمیایی مقاوم هستند، آب را جذب نمی کنند، در شرایط محیطی تغییر رنگ نمی دهند و مقاومت بسیار بالا در برابر سایش سطح دارند.

مفصولات کاشی شیشه ای میراک سرامیک برای نصب در داخل و خارج ساختمان قابل هستند و برای غوطه ور شدن مداوم در آب و قرار گرفتن در معرض شرایط اقلیم مناسب می باشند.

GLASS MOSAIC

.Mirak Ceramic glass tile products are designed to be used like ceramic products
Mirak Ceramic glass tile products are resistant to chemicals, do not absorb water, do not change color in environmental conditions and have a very high resistance to surface wear
Mirak Ceramic glass tile products can be installed inside and outside the building and are suitable for continuous immersion in water and exposure to freezing conditions

Ceramic glue

چسب های سرامیک پودری میراک سرامیک با دو فرمول متفاوت برای نصب انواع سرامیک ، کاشی ، اسلب و انواع کاشی های استخری با چسبندگی و انعطاف پذیری بسیار بالا

M-STRONG / M-POOL

دارای استاندارد ملی ایران با کد **9087716008**

● طریق استفاده

- چسب میراک با کاردک دندانه دار و در بعضی از مواقع بصورت لقمه ای قابل اجرا می باشد.

- ترکیب آماده شده در مدت **2** ساعت مصرف گردد.

- در زمان نصب سرامیک باید توجه داشت که چسب سرامیک بعنوان یک چسب تحت فشار و حرکت کشویی روی دیوار چسبانده شود. بنابراین اگر سطوح زیر کار ناصاف باشد چسب اضافی مانع چسبیدن گردیده و چنانچه سرامیک تحت فشار قرار گیرد در اثر فشار عامل خروج چسب از بند سرامیک می گردد و از طرفی نمیتوان چسب سرامیک را در زمان ساخت با غلظت بالا تهیه نمود چون این امر عامل نجسیدن چسب به پشت سرامیک و سطح زیر کار میگردد.

- چسب آماده میراک شامل سیمان و رزین های امولسیون است. لازم است در دمای محیط بالای **5** درجه سانتیگراد اجرا شود.

- در هوای سرد و محلهایی که ارتفاع کاشی کاری زیاد است نصب سرامیک در دو مرحله با فاصله زمانی حداقل **7** ساعت اجرا گردد و زمستان که دمای هوا زیر صفر است محیط گرم گردد.

- در حال حاضر نسل جدید سرامیک ها ابعادی بزرگ و وزن زیاد دارند و جذب آب آنها حداقل می باشد در نصب این نوع سرامیک می بایستی به نکات زیر توجه شود:

* نصب سرامیک بر روی دیوار در ارتفاع در چند مرحله با فاصله زمانی اجرا گردد تا سنگینی سرامیک و عدم جذب آب مصالح باعث لغزش و جداشدگی سرامیک نگردد.

● مشخصات

- چسب های میراک بر پایه پودرهای معدنی مختلف ، سیمان، مواد غلظت دهنده، مواد چسبنده مضاعف با خواص ارتجاعی بالا بصورت تک جزئی تولید گردیده است.

● موارد استفاده

- برای نصب انواع سرامیک ، کاشی ، اسلب و انواع کاشی های استخری بر روی کاشی ، بتن ، سطوح سیمانی ، سنگ طبیعی و مصنوعی ، جهت کف و دیوار در پارکینگ ها ، کارخانجات مواد غذایی ، استخرهای شنا ، آزمایشگاه ها و منازل مسکونی و آبریزگاه های عمومی که نیاز به چسبندگی و خواص ارتجاعی بالا دارند استفاده میگردد.

● مزایا

- در ترکیب چسب های میراک از مواد چسبنده پودری و مواد بهبود دهنده خاص استفاده گردیده. بنابراین نیاز به اضافه کردن مواد افزودنی دیگری ندارد. این محصول در کلیه سطوح دیوار و کف قابل استفاده می باشد.

- سرعت اجرای بالا ، اختلاط آسان و سریع ، خواص ارتجاعی بسیار بالا

- نصب سرامیک و سنگ در قطعات و ابعاد بزرگ در نمای داخلی و خارجی ساختمان و گرمایش از کف

- مقاومت بالا در مقابل آب و غوطه وری در آب

- انعطاف پذیری بالا و مناسب جهت محیط های با تغییرات دمایی زیاد

● طریقه ساخت

- چسب میراک بصورت مستقیم با آب مخلوط می گردد و توصیه می شود در زمان مخلوط کردن از میکسرهای دور پایین و با اوزان **30** الی **50** کیلوگرمی استفاده شود ، زمان مخلوط کردن با میکسر **10** دقیقه است که این عمل در دو مرحله با فاصله **5** دقیقه انجام می گیرد. برای ساخت چسب به میزان کم میتوان با دست به آرامی مخلوط نمود. هر کیسه **25** کیلوگرمی با **5** تا **6** لیتر آب مخلوط می گردد.

● میزان مصرف

میزان مصرف بین **3** تا **5** کیلوگرم در هر متر مربع می باشد.

● بندکشی

- لازم است بندکشی یک روز پس از گبرش چسب اجرا و در صورت استفاده از کاشی با جذب آب پایین و ابعاد بزرگ در مدت زمان طولانی تری اجرا گردد.

● بسته بندی

- چسب میراک در کیسه های **25** کیلوگرمی عرضه می شود.
