LAPATO

● A glossy finish is different from polished, in that it is created with a glossy glaze instead of a polishing wheel process. A glaze is basically a glass-like layer added to the surface of a tile to protect any printed design and seal the tile surface, making it non-absorbent and easier to clean

● Matt, or matte, tiles do not reflect light and can be smooth or textured. They are designed to absorb light, the exact opposite of a polished or glossy finish

● The shiny, mirror like finish shows off modern printing and polishing techniques to perfection, a cost-effective solution for achieving grandeur and opulence. The Polished surface exhibits a full range of tones, from bright highlights to dark shadows

● The latest trend in contemporary porcelain tiles, known as Lappato by Italian manufacturers. Think of the 'patina' on an antique metal lampshade, with contrast and depth in color and texture. Our new Cement Milano is a distinctive example

CAROL & VERONICA

Carol & Veronica

The neutral-toned original marbles are mostly Italian in origin, renowned throughout the world for their purity, balance of color, and the vein patterns. A bright white and a clear black convey a solid elegance founded on harmonious combinations. The whiteness of Carol transforms into light, the natural depth of that is rich and varied. The veins move across the surface with surprising natural character. The fidelity of the ceramic reproduction conveys all the richness of the original marble. Light veins slice in Black Veronica design through the black depths with absolute clarity. White and golden traces make this marble precious, ideal for bringing out color or for contrasting with white.

VALERY & EDMOND & VERONICA

Valery & Edmond & Veronica

Valery looks like a canvas upon which veins of intense beige and golden tones cross. Watercolor patches that emerge in different shapes, sizes and directions.

It's perfect for high-impact environments, either matched with other light and neutral colors such as Edmond white or as a stylistic contrast with dark colors such as Veronica black porcelain tile.

BARBARA & SANDRA

BARBARA & SANDRA

Deep and velvety with a deep black background and fine white speckling, Sandra is all about originality and the power of the visual. A polished tile created to bring out the full harmony and elegance of any interior. It's perfect to create a contrast by adding Barbara with its deep dark veins standing out on a crystalline white background. Floors, walls, countertops, stairs and tables are some of the surfaces that can be brought to life in full splendor with this collection.

ELIANA & SAMANTHA

Eliana & Samantha

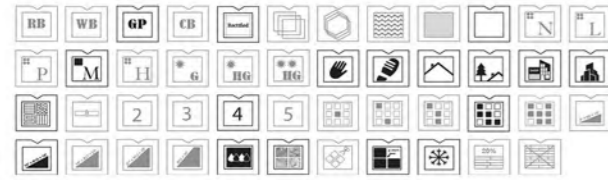

The eternal classical style of black marble can be combined with all styles and colors for the design of your home. The truth is that black is a very elegant and sophisticated color and lends an air of seriousness wherever it is used. There are no areas that are more or less appropriate for it but you do have to decide on the atmosphere you want to prevail in each space to harmoniously combine black marble with other materials. Samantha offers all of these possibilities and is capable of transforming and being adapted to any space. It comes in 80x160 format with a high-shine polished finish.

ARIANA

Ariana

Blue tiles are timeless: classic, elegant yet at the same time very current. Choosing to cover one or more rooms with these shades is the perfect way to convey balance, calm, and harmony. Blue recalls water, the sea, and at the same time relaxes, so it's the ideal shade for environments such as the bathroom or the bedroom. White and Blue Ariana porcelains are one of the best choices in an array of shades and sizes to furnish residential and commercial spaces, both indoors and out.

STANFORD

Stanford

Blue is the color of infinity and silence. That's what makes it perfect for bedrooms, where it conveys the necessary tranquility and harmony. Combined with materials such as glass or crystal, it helps to define the space, adding elegance and refinement. Glossy or satin surfaces, three-dimensional patterns and geometric decors: the wide variety of graphics and effects allows you to customize spaces as you wish, creating harmonious or contrasting combinations.

UNIVERSE

Universe

This collection recreates the veins and the color shifts of marble stones and its use as a general floor tile allows for the design of more spacious rooms.

The look of Izmir is embodied in two contrasting and complementary identities: one is natural and simple, the other glossy and more spectacular. As it is a neutral collection, its combination with wrought iron furniture, minimalist lamps or light textiles will emphasize the potential of each piece.

ONYX

ONYX

Onyx pieces recreate the naturalness of Onyx stone marble with the technical qualities of ceramics. The main innovation presented in this collection with respect to the original marble is the definition of its veins and the strength of its surface. This, in turn, expands the use of this material to interior and exterior spaces and allows the design of fine and unlimited spaces.

FIORE

Fiore

Wallpaper effect tiles can be used in any room of the house, regardless of the type of room. Wallpaper look tiles have the technical characteristics of porcelain stoneware and therefore offer a high number of possibilities in terms of installation, in the bathroom, the kitchen or the living room. Opting for ceramic wallpaper means choosing to give life back to the walls and put them back at the center of your decoration style. It becomes an occasion to transform walls into real artistic frescos.

GRAVITY

Gravity

First employed at the turn of the 19th and 20th centuries, encaustic tiles gave the interiors of the time a sense of majesty, and they can still be found today in vintage palaces and buildings. Gravity is an updated version of 20x20 cm encaustic tiles that you can use to maintain consistent background graphics and shades. The minimalist look of the collection evokes a northern European taste. The post-industrial mood evoked by the earthy tones of concrete re-imagines the romantic vision of Central Europe oriented towards the reclamation of an ancient beauty combined with the value of artisanal craftsmanship.

SMOKE

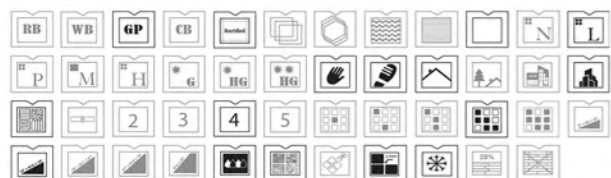

Smoke

The concrete effect extends to all spaces of everyday life, from the most intimate to the most sociable, from the interior to the exterior. Smoke design in 3 colors allows you to project your own style in safety and continuity, extending the design possibilities. Thanks to the Italian touch and attention to detail, the collection surpasses the minimalism of industrial style to become the centerpiece of original environments with a strong identity.

WELLS

Wells

This collection defends the purity of white in its 40 cm x 120cm format. The irregular and soft veins allow for an enhanced balance of points of light in indoor and outdoor spaces with beige and cream tones. Also the decor tile bring agility and liveliness to the place where they are installed, be it a sophisticated corner of the house or the more urban contract space. The compositions, textures and colors of this ceramic, with a retro taste, are able to distinguish and enhance the kitchen, bathroom or living room, becoming the center of attention.

Characteristics

Recommendations

HERMÈS
ceramica

- The technical information written on the product package should be read.
- The product type based on the applied space should be carefully chosen.
- The shade, model and caliber options on the cartons of the products should be the same. One of the tips for the better performance of the products is to pay attention to the correct installation instructions and the following steps.
- Se debe leer la información técnica escrita en el paquete del producto.
- El tipo de producto basado en el espacio aplicado debe elegirse cuidadosamente.
- Las opciones de color, modelo y calibre en las cajas de los productos deben ser las mismas. Un consejo importante para el mejor rendimiento de los productos es prestar atención a las instrucciones de instalación correctas y los siguientes pasos.
- Техническая информация написанная на упаковке продукта должна быть прочитана.
- Тип продукта основанный на примененном пространстве должен быть тщательно выбран.
- Варианты оттенка, модели и калибра на коробках продуктов должны быть одинаковыми. Один внимание для повышения эффективности продукции, обратить внимание на правильные инструкции по установке и следующие шаги.

- The installation place should be smooth, even and sturdy hard.
- The installation place must be free of dust or dirt.
- Avoid installing the product in very hot or cold temperatures.
- The above conditions are the same for the floor and wall products.

- El lugar de instalación debe ser liso, uniforme y resistente.
- El lugar de instalación debe estar libre de polvo o suciedad.
- Evite instalar el producto en temperaturas muy altas o bajas.
- Las condiciones anteriores son las mismas para los productos de piso y pared.

- Место установки должно быть гладким, ровным и твердым.
- Место установки не должно содержать пыли и грязи.
- Не устанавливайте изделие при очень высоких или низких температурах.
- Вышеуказанные условия одинаковы для напольных и настенных изделий.

Before installing the product, pay attention to the following items:

Instalación del producto Antes de instalar el producto, preste atención a lo siguiente:

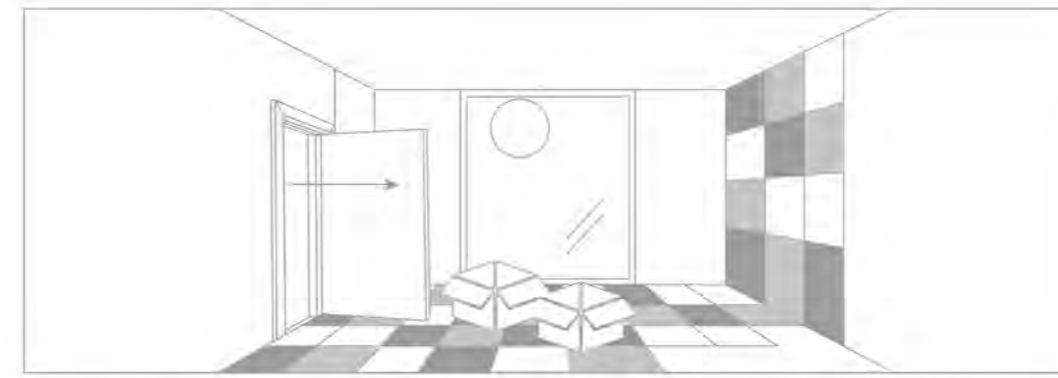

Перед установкой продукта обратите внимание на следующие пункты:

01

Lugar de instalación

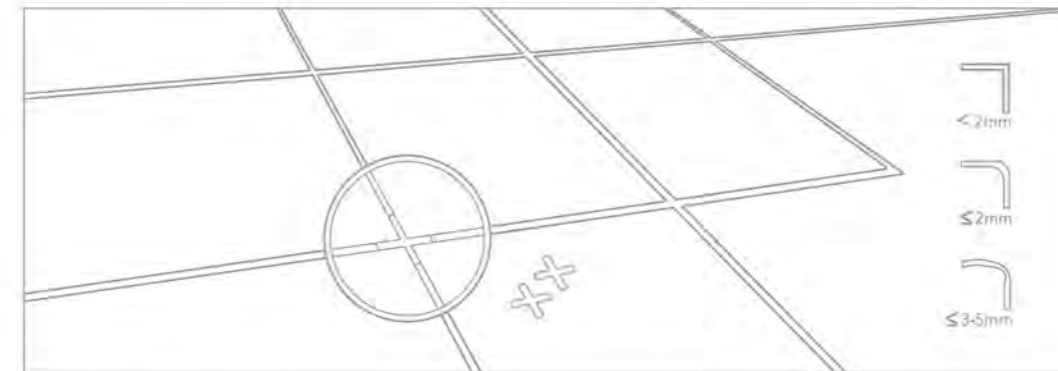

Место установки

- It is recommended that to use the product sections by random selection in the target space.
- If the product has any various different shade or graphics, the random selection and installation is necessary.

- Se recomienda utilizar las secciones del producto mediante selección aleatoria en el espacio objetivo.
- Si el producto tiene varios tonos o gráficos diferentes, es necesaria la selección e instalación al azar.

- Рекомендуется использовать разделы продукта путем случайного выбора в целевом пространстве.
- Если продукт имеет различные оттенки или графику, необходим случайный выбор и установка.

- In order to properly install the products, the cross or parallel linings should be used. The cross parallel linings are used for more beautiful installation, where the important technical issues (concerns), the alignment of the products and the prevention of any deformation on wall and floor surfaces should be considered.

- The minimal use of the offered cross linings will help you to make your ceramic installation more comfortable, fascinating and elegant. Therefore, in order to prevent any fault, the following items should be considered:

- Rectified products: at least 2 mm
- Non-rectified products: at least 2 mm
- Rastic products: 3 - 5 mm

- Remark: Regardless of the values written, the compliance with the installation rules of each region (country) is necessary, when the products are installed.

- Para instalar correctamente los productos, se deben utilizar los revestimientos cruzados o paralelos. Los revestimientos paralelos cruzados se utilizan para una instalación más bella, donde se deben considerar los problemas técnicos importantes, la alineación de los productos y la prevención de cualquier deformación en las superficies de la pared y el piso.

- El uso mínimo de los revestimientos cruzados ofrecidos lo ayudará a hacer que su instalación de cerámica sea más cómoda, fascinante y elegante. Por lo tanto, para evitar cualquier falla, se deben considerar los siguientes elementos:

- Productos rectificadas: al menos 2 mm.
- Productos no rectificadas: al menos 2 mm.
- Productos rásticos: 3 - 5 mm.

- Observación: Independientemente de los valores escritos, el cumplimiento de las reglas de instalación de cada región (país) es necesario cuando se instalan los productos.

- Для правильной установки продуктов следует использовать поперечные или параллельные накладки. Поперечные параллельные накладки используются для более красивой установки, где следует учитывать важные технические факторы, выравнивание изделий и предотвращение любых деформаций на поверхностях стен и пола.

- Минимальное использование предлагаемых поперечных прокладок поможет вам сделать вашу керамическую установку более комфортной, увлекательной и эlegantной. Поэтому, чтобы предотвратить любую ошибку, следует рассмотреть следующие пункты:

- Ректифицированные продукты: не менее 2 мм
- Неректифицированные продукты: не менее 2 мм
- Растровые продукты: 3-5 мм

- Примечание: Независимо от записанных значений, при установке продуктов необходимо соблюдение правил установки для каждого региона (страны).

INTERSECTION OF TILES

Intersección de azulejos

Площадь пересечения плитки

- The use of filler mortars, tile adhesives and other adhesives should be proportional to the type of purchased product and these should be usable in the interior-exterior spaces, floor-wall surfaces and flat and non-planar surfaces.
- remark: The manufacturer instructions should be read necessarily when installing.
- El uso de morteros de relleno, adhesivos para losetas y otros adhesivos debe ser proporcional al tipo de producto adquirido y estos deben ser utilizables en los espacios interiores-exteriores, superficies de piso-pared y superficies planas y no planas.
- Observación: Las instrucciones del fabricante deben leerse necesariamente al instalar.
- Использование шпаклевочных растворов, плиточных клеев и других клеев должно быть пропорционально типу приобретаемого продукта и их следует использовать во внутренних и наружных пространствах, поверхностях пола и плоских и неплоских поверхностях.
- Примечание: Инструкции производителя должны быть обязательно прочитаны при установке.

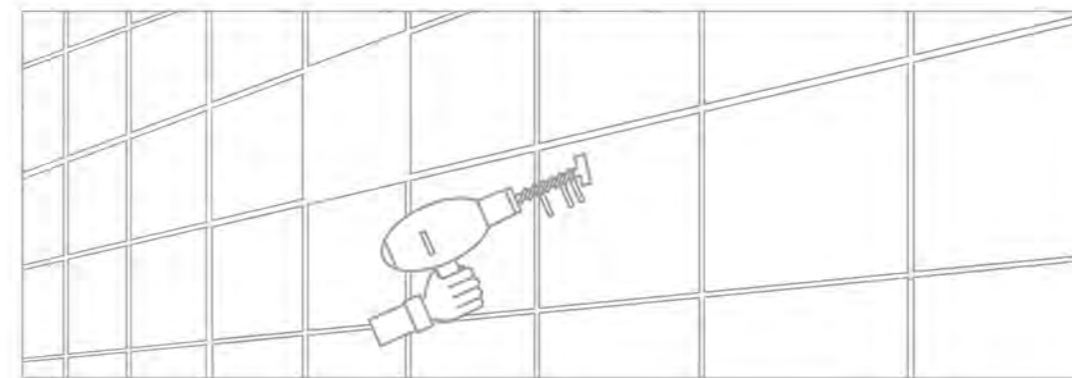

- For cutting the ceramic pieces, you can use a hand cutter.
- For cutting the harder pieces, you can use the electrical cutter with higher than 1 horsepower with water to cool the machine.
- Para cortar las piezas de cerámica, puede usar un cortador manual.
- Para cortar las piezas más duras, puede usar la cortadora eléctrica con más de 1 caballo de fuerza con agua para enfriar la máquina.
- Для резки керамических кусков вы можете использовать ручной резак.
- Для резки более твердых деталей вы можете использовать электрический резак с водой более 1 лошадиных сил для охлаждения машины.

ADHESIVE
AND MORTAR

ADHESIVO
Y MORTERO

Клей и раствор

- Diamond-sized screw drill should be used to perforate the product.
- Se debe usar un taladro de tornillo de diamante para perforar el producto.
- Для перфорации продукта необходимо использовать винтовое сверло алмазного размера.

06

PERFOATION

perforación

Перфорация

05

CUTTING

Резка

- When carrying the products and dislocating the pieces, it is recommended to choose the correct method.
- the safety shoes, gloves, goggles and earplugs must be used, when cutting the products.
- Cuando transporte los productos y disloque las piezas, se recomienda elegir el método correcto.
- Deben usarse zapatos de seguridad, guantes, gafas y tapones para los oídos al cortar los productos.
- При переносе продуктов и вывихе кусков рекомендуется выбирать правильный метод.
- при резке продуктов следует использовать защитную обувь, перчатки, защитные очки и беруши.

Безопасность и
подготовка
материалов

- after installation, the maintenance of the products is imperative.
- In order to clean the residuals of soil, cement, bonding powder and cross linings, immediately use the neutral buffer and detergent after installation.
- the use of the neutral detergents for daily cleaning and washing is recommended.
- Avoid the abrasive detergents to clean the decorative sections of the products. the use of the neutral detergents and the certitude for cleaning the third baked products with the different lead, gold, silver coatings etc. are necessary.

- Después de la instalación, el mantenimiento de los productos es imprescindible.
- Para limpiar los residuos de tierra, cemento, polvo de unión y revestimientos cruzados, use inmediatamente el tampón neutro y el detergente después de la instalación.
- Se recomienda el uso de detergentes neutros para la limpieza y el lavado diarios.
- Evite los detergentes abrasivos para limpiar las secciones decorativas de los productos.
- Es necesario el uso de detergentes neutros y la certeza para limpiar los terceros productos horneados con los diferentes recubrimientos de plomo, oro, plata, etc.

- После установки, обслуживание продуктов имеет важное значение (обязательно).
- Для очистки от остатков почвы, цемента, связующего порошка и поперечных прокладок немедленно используйте нейтральный буфер и моющее средство после установки.
- Рекомендуется использовать нейтральные моющие средства для ежедневной уборки и стирки.
- Избегайте абразивных моющих средств для очистки декоративных участков изделий. Необходимо использование нейтральных моющих средств и уверенности для очистки третьих выпеченных изделий с различными покрытиями из свинца, золота, серебра итд

- Any generated wastage (carton and plastic) should be segregated in appropriate places for recycling.

- Cualquier desperdicio generado (cartón y plástico) debe ser segregado en lugares apropiados para reciclaje.

- Любые образовавшиеся отходы (картонные и пластиковые) следует сортировать в соответствующих местах для переработки.

CUTTING-EDGE TECHNOLOGY

Each raw material used, each productive process and each technology of the complex activity of the Tabriz Group sites are studied in order to reduce the environmental impact, by saving, recycling, filtering, with the will of transforming the waste in resources and optimize the use of energy. Tabriz Group is on the cutting-edge of adopting ecologically sustainable practices and this is demonstrated by the most accurate controls, repeated on a daily basis.

	Reused Non-Fired Material		Energy Saving
	Recycling of Fired Material		Packing From 100% Recycled Materials
	Water Recycling From The Production Process		Ceramic Products Sustain Ability
	Low Gas Emissions to Atmosphere		FAO Pallets

THE ENVIRONMENT CERTIFICATION

Tabriz Group have obtained the most prestigious international environmental certifications. Agencies and control bodies have officially recognized the work done by the company for the safeguarding of the earth's natural resources. These certifications are proof of the high standards attained by Tabriz Group, a company which is a forerunner in terms of sustainable development. These are a clear proof of how it is possible to reconcile quality, industrial innovation and design with a serious policy for environmental safeguard.
